CALIFORNIA GIANT DAHLIAS

KING ALFRED (Seal)—Informal Decorative.

Immense, full, velvety blossoms of a color resembling that of a rich, red ruby inclining toward crimson. The long silver-backed petals turn and swirl showing the silver lining, making an unusual and delightful new two-toned color combination of ruby and silver. The flowers of great substance and depth can be easily grown to a diameter of twelve to fourteen inches. The immense blooms, on long stiff stems, face you. The centers are perfect and hold to the end of the season. The plant is of medium tall height and vigorous growth. The flowers are excellent keepers, and last for days, both on the plant and when cut. To those who love color this dahlia will bring hours of intense enjoyment. King Alfred has attracted more attention in our garden than any other dahlia owing to its great size and unusual color combination. Per root.....\$15.00

CATHERINE KEMPKEY (Seal)—Informal Decorative.

Adorable peach colored blossoms, with long fluffy petals deepening to a perfect center of bronze apricot, are covered with an iridescent sheen, adding an exquisite charm. The large full flowers, frequently twelve inches in diameter, are carried perfectly erect on long stems. The medium-tall bush is of a most vigorous growth and covered at all times with these beautiful blooms. Per root.....\$10.00

FLAMING FLAMINGO (Seal)—Informal Decorative.

New and unusual is this brilliant dahlia of the coloring of the tropical flamingo bird. These dazzling flowers from eleven to thirteen inches in diameter, have strong stems, and are held high above a medium height vigorous plant. The petals are long and broad and have a satiny texture. The gorgeous blossoms fairly gleam with light when the sun strikes them. Per root.....\$10.00

*"Shall love yellow always, since it brings
To mind your joy in buttercups aglow."*

—MAY CARLETON LORD

OUR GREAT INFORMAL DECORATIVE OF TRUE YELLOW

The golden yellow blossoms are huge without forcing and are held high on long, stiff stems. Many growers consider it "by far the finest yellow"; "a superb dahlia"; "a free blooming golden yellow—one of the best of the year"; "H. R. S. was one of the finest, if not the finest, of the new ones."

NOVELTY AND STANDARD DAHLIAS

We are using the new Classification of the American Dahlia Society, as follows: Cactus (Cac.); Semi-Cactus (S.C.), formerly listed as Hybrid Cactus; Formal Decorative (F.D.), those with regular arranged petals; Informal Decorative (I.D.), those with curly twisted, irregular arranged petals.

The varieties listed below are desirable additions to any garden, and regardless of price they are all beautiful. The more expensive varieties are higher priced only because there are fewer on the market.

- ALEX CRAIG (Cac)**—Canadian beauty of rose pink with cream center. Perfect form. Good stems\$1.25

We recommend this dahlia on its color, but it is charming and satisfactory in all respects. Immensely attractive when cut. Certificate of Merit at Storrs.....\$7.50

Seal's Dahlia Seed

Gorgeous Dahlias May Easily
Be Grown the First Year from Seeds

HAVE YOU EVER TRIED GROWING
OUR CALIFORNIA DAHLIA SEED?

Undoubtedly one of the most fascinating phases of dahlia culture is the origination of new varieties from seed and the real thrill in growing dahlias is producing new varieties. Growing dahlias from seed is a lottery but it is a great sport and you may be the lucky winner of some fine new dahlias and to know the joy of having a seedling patch.

We would advise for best results for general purposes, Collections A or B, as they are made up of specially selected varieties from the most famous novelties and can be planted from March 1st to May 1st, and to May 15th in a frostless belt.

"From your seeds last year had some beautiful blooms; am going to try them again this year hoping I will have as many thrills as I did last year."—Englewood, N. J.

"Again it is a pleasure to let you know what wonderful success I have had with your seeds. My three-year-old seedling won 'first' at World's Fair on Wisconsin Day and received the bronze medal. Out of last year's seeds one semi-cactus rose with lavender reverse took 'first' prize at World's Fair, also a magenta colored lighter reverse, very full flower, received 'first' prize in class of three blooms, undisseminated."—Milwaukee, Wis.
